

*Design and Discovery*

## Final Presentations

*Design and Discovery* culminates with students showcasing their projects. *Session 17: Fairly There* describes the different types of fairs that can be planned, including information on how students can participate in an Intel ISEF-affiliated fair (International Science and Engineering Fair). Students are also given direction on how to prepare a display board for a fair. Fair preparation continues as students practice presenting to their peers in *Session 18: Dress Rehearsal*
