Students Speak Out

Intel® Learn Students Offer Their Assessments of the Program

I wish all of our courses were like this one.

Learner, Turkey

The way we learn on our own is more meaningful than the ordinary method.

Learner, India

I want to use what I learned in the course to improve my community.

Learner, Egypt

These activities have helped me to think about the innovative use of technology in the future.

Learner, India

The activities made me think more about professions and how technology can be used in them.

Learner, India

TAW [Technology at Work] gave me an idea of how to make use of technology when I grown up and become a teacher.

Learner, India

I enjoy sharing since it gives me more ideas by seeing the work of others.

Learner, India

Working with my friend makes me learn new things easily.

Learner, India

Planning makes our work systematic and easier.

Learner, India
