INTEL® PC BASICS SOFTWARE

Training the next 1 billion users

Intel® PC Basics is license free courseware that delivers PC literacy training to learners of all ages and backgrounds. It enables novice PC users to get started with their PC and use the main computer applications.

It is designed to be used in ICT enablement or education programs by government ministries, local telecoms providers, and non government organizations as well as other similar entities.

Intel® PC Basics is a key differentiator in programs targeting diverse first-time and novice users.

To date it has been used by over 5 million learners worldwide in over 20 countries, and in 20 plus languages.

The beauty of Intel® PC Basics is its simplicity. It is a proven tool to accelerate usage of PCs and the Internet among the next billion users.
