

It's hard to believe we've reached our 10<sup>th</sup> year of Intel® Teach in the United States, with over 350,000 educators like you participating in all 50 states. Over and over again we've been inspired by the stories you tell us about the ways Intel Teach has impacted you, your colleagues, and your students. We think it's time to celebrate.

We invite you to join us for a celebration at ISTE 2010 (formerly known as NECC). We also invite you to celebrate with us now by telling your story here, on the Intel Teach *Teachers Engaged Community*.

Twenty "inspiring educators" will be selected to win an all-expense-paid trip to (NECC) ISTE 2010 to celebrate with us in person. Contest rules are provided here on the *Teachers Engage Community*, and all stories will be featured on the community, so check back often.

We look forward to sharing your inspiring stories. It's been an amazing 10 years, thank you for being part of it.

Steve Andrews

Intel® Teach U.S. Program Manager
