

**Free Webinars
for Educators Dedicated to
Transforming K-12 Classrooms**

Spend an hour with an inspiring group of educators and get energized by their examples of effective ways to engage your students. Intel® Education Webinars are interactive, live virtual sessions about the core concepts that are our educational resources' focus: instructional design, project-based approaches, effective use of technology, assessment of 21st century skills, and open-ended questioning. Join us!

Intel® Teach Live

Last Week of Every Month
Join our *Senior Trainer* dynamic duo, Dyane and Vanessa, for technology integration ideas and resources. With post-Webinar activities to prepare you to implement your learning.

Intel Professional Development & K-12 Resources

Join our experts to learn strategies and tips as they share effective uses of free K-12 teaching resources and professional development available online.
