

## Intel Investing in Arizona

Intel established a presence in Arizona in 1979 and began operations in Chandler the following year in 1980. There are approximately 9,700 employees, making it the 2<sup>nd</sup> largest Intel site and the largest employer in Chandler, Arizona. Since 1996 Intel has invested over \$12 billion in high-tech manufacturing capability in the state and spends over \$450 million each year in research and development. Intel contributes more than \$2.6 billion in economic impact to Arizona including more than 20,000 additional jobs as a result of our operations here. Arizona is home to two high volume manufacturing facilities, Fab 12 and Fab 32.

The Arizona manufacturing facilities incorporate a number of energy and water conservation measures that characterize Intel's long track record of environmental stewardship. Fab 32, the company's latest and most advanced manufacturing facility, is in the process of seeking LEED certification which will be Intel's first LEED certified building for an existing facility. Intel Arizona provides two full service onsite employee healthcare facilities catering to Intel employees and a state-of-the-art fitness facility that utilizes Intel Embedded processors.

### Arizona Quick Facts

**Employment:** 9,700

**Capital Investment:** \$12 billion in manufacturing since 1996

**United Way contribution:** \$6.6M

**Volunteer Hours:** 127,000 hours in 2009

*Intel's C7 facility in Chandler is home to several business units focused on product design and development and validation labs.*

## Intel in the Community

In 2009, more than 3500 employees volunteered in area schools and non-profits. Through Intel's matching grant program, which matches employee's volunteer time with \$10/per hour to organizations, the company donated over \$620,000 back to the community.

Intel was awarded the highest volunteer honor in the state of Arizona, the 2009 Governors Volunteer Service Award in the large company category and the 2010 National Governors Association Public Private Partnership award for its work with the Arizona Department of Education to provide technology training for teachers.
