

## WiMAX ECOSYSTEM PARTNER INFORMATION

### Motorola™

Known globally for its innovation and leadership in wireless and broadband communications and as a leading provider of WiMAX solutions, Motorola follows a vision of enabling seamless Internet mobility through "must have" products, "must do" experiences, powerful networks, and a full complement of support services. As a XOHM partner, Motorola is establishing XOHM's WiMAX network in Chicago and several other U.S. metropolitan areas, and developing WiMAX solutions designed to support fixed, portable, nomadic and mobile applications -- including access points, customer premises equipment and mobile chipsets.

### Nokia™

Nokia is the world leader in mobility, driving the transformation and growth of the converging Internet and communications industries. We make a wide range of mobile devices with services and software that enable people to experience music, navigation, video, television, imaging, games, business mobility and more. Developing and growing our offering of consumer Internet services, as well as our enterprise solutions and software, is a key area of focus. Nokia has developed the Nokia N810 Internet Tablet WiMAX Edition that will offer users on-the-go broadband access to the information and services important to them.

### Nokia Siemens Networks™

Nokia Siemens Networks is a leading global enabler of communications services and one of the world's largest telecommunications infrastructure companies. The company's global scale, experienced resources, and commitment to growing the WiMAX ecosystem make Nokia Siemens Networks a powerful XOHM partner. The company will be a XOHM network infrastructure provider for major U.S. markets. **Visit Nokia Siemens Networks online:**
