Errata / Contingency

Operating System	Failing Test	Expiry date	ID Number	Type	Error Description
Windows 7 Windows 7 64	Class Driver AC3 Test - Win7 (System)	6/1/2010	1256	Erratum	Run AC3 test on a system with the Microsoft HD Audio class driver installed. Expected results: All AC3 kernel streaming data ranges should advertise MinimumBitsPerSample = 16 and MaximumBitsPerSample = 16. Actual results: HD Audio class driver sometimes advertises MaximumBitsPerSample = 24.
	PCI Hardware Compliance Test For Systems	6/1/2010	1241		This happens because the PCI Compliance test assumes that if the Data Link Layer Link Active Reporting Capable bit in the Link Capabilities register for a given PCIe port is set then that indicates that the Data Link Layer Link Active bit will also be set. This is an incorrect assumption because the Data Link Link Layer Link Active bit can be reset when there is no device below the port. This assertion needs to be removed from the PCIHCT. The current architecture of the PCIHCT prevents it from knowing whether devices exist below a bridge/port.
		2/8/2010	401		The following PCI Compliance test failure is acceptable: Bit 15 (Bridge Configuration Retry Enable) in the Device Control register (offset 8h) in the PCI Express Capability table must be read-only and always return 0 as it is reserved for devices other than PCI Express to PCI/PCI-X Bridges. Assertion 13A41D3E-2576-41DC-A67C-525DA3637CEA This failure is acceptable because this is a PCIe 1.1 feature and the WLP requires compliance with only PCIe 1.0a.
	UAA Test - Win7 (System)	7/1/2011	1466		UAA Test: Preview Filter - Intel Low Power DCN says "EPSS implies KeepAlive, but only after July 1st 2011"
		8/9/2010	1299		UAA Test: Some digital pin widgets incorrectly set Jack Detect Override
		8/9/2010	1288		UAA Test: preview filter for Encoded Packet Type validation
		6/1/2010	1300		UAA Test should ignore pin widgets whose Configuration Default has Port Connectivity = No Connection
		8/9/2010	1348		UAA Test digital converter channel to HDMI slot mapping failures
		8/9/2010	1198		UAA Test Preview errata: S/PDIF pin "Pin Sense" responses cannot use "Impedance" bits
		6/1/2010	513		UAA Test (System) fails Intel HD Audio controller whose Traffic Priority bit is not read/write.
		12/31/2010	2124		Certain Intel Codecs swallow the first response after a function group reset.

Operating System	Failing Test	Expiry date	ID Number	Type	Error Description
Windows 7 Windows 7 64	UAA Test - Win7 (System)	12/31/2010	2125	Erratum	Certain Intel Codecs swallow the first response after a function group reset.
		12/31/2010	2399		Certain Intel Codecs swallow the first response after a function group reset.
	KS Topology Test - Win7 (System)	2/8/2010	1733		PREVIEW: KS Topology Test KSPROPERTY_JACK_DESCRIPTION2
	Graphics HDMI System Test (Manual)	6/1/2010	1717		GraphicsHDMITest: should ignore pin widgets that have "Port Connectivity" set to "No Physical Connection"
		12/31/2011	1666		graphics-hdmi-test-intel-two-of-three
		3/31/2010	2247		Intel HDMI solutions follow the Intel HD Audio HDMI DCNs -34-A, 39-A.
